### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Claims 1-3 and 5-63 were previously allowed in the Notice of Allowability of 6/3/05.

Claims 1-3 and 5-63 remain pending.

#### ***Examiner Reassignment***

This Application has been reassigned to Examiner Robert M. Kelly of Art Unit 1633, Tech Center 1600, in light of the previous Examiner's promotion to SPE of Art Unit 1633. All future correspondence should be addressed accordingly.

#### ***Allowability of the pending claims is withdrawn***

The prior Examiner's review of the Application has demonstrated that there exist in Applicant's present claims. Examiner Nguyen attempted to contact the Attorney of record several times over the last week, and in a final conversation, it was indicated by the Attorney of record that the Application has been transferred to new legal counsel. Therefore, this Action is issued and the previous allowance of all pending claims is withdrawn.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 25 and 56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 25 and 56 limit the polycationic moiety "Y" of claims 23 and 54, respectively, to "Y is a member selected from the group consisting of lysine, arginine, asparagines, glutamine, derivatives thereof and combinations thereof. However, claims 23 and 54 limit the moiety of

Art Unit: 1632

"Y" to "a member selected from the group consisting of lysine, arginine, asparagines, glutamine, derivatives thereof and combinations thereof". However, the various amino acids do not have cationic side chains, for example, glutamine is not cationic. Therefore, the polycationic moiety would not be polycationic. Hence, it is unclear what Applicant is claiming.

### ***Double Patenting***

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 12 and 43 are objected to under 37 CFR 1.75 as being a substantial duplicates of claims 1 and 33, respectively. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claims 12 and 43 limit the moiety "Y" to those limitations found in the base claims, and therefore, this objection is proper.

### ***Claim Objections***

Claims 13-26 and 44-57, and 62-63 are objected to for depending from objected-to base claims.
